MODERN CONTROLLERS

LEARN THE CRAFT

Make music with industry veterans.

Customize your team event.

No music experience necessary.

We bring your team into our studio environment where participants get a crash course in rhythm, the mechanics of modern audio production, and then produce EPs all within 3 hours: sequence drum beats, chop up song samples, perform on DJ controllers. Team members will work together to produce professional-sounding tracks and walk away with a new appreciation for the art and science of music-making.

BAND TOGETHER

Creating one-of-a-kind professional music tracks is the ultimate in team-building experiences. Participants discover their creative audio design skills and gain a new appreciation for the art of song production. All while supporting Today's Future Sound, an organization dedicated to bettering STEAM education in our communities.

SUPPORT US TO SUPPORT OUR COMMUNITY

Today's Future Sound is an Oakland-based non-profit* founded by Elliot Gann, Psy.D. We work in elementary, middle, and high schools teaching DJing and music production to at-risk students and communities. TFS enables young people to express themselves in healthy ways while simultaneously integrating STEAM curriculum, leadership skills, developing media literacy, musical knowledge, as well as cultural and artistic awareness. TFS instructors are also pro artists, sound engineers, multi-instrumentalists.

*TFS is a fiscal project of the Friends of Oakland Parks and Recreation, a 501(3)c organization.
